Title: Indexing fuel taxes.

Description: AN ACT relating to fuel taxes; adjusting gasoline, diesel fuel and alternative fuel tax rates by indexing the tax rate to the consumer price index; and providing for an effective date.

Bill Summary: Taxes on gasoline and diesel fuel will be indexed to inflation, meaning the taxes charged per gallon will fluctuate with inflation and deflation. Currently, 24 cents per gallon is charged on gasoline. That tax has not changed in several years, but the buying power of the 24 cents has decreased. By indexing fuel taxes to inflation rates, the revenue generated from the index will maintain its buying power through inflationary times.
