

COVID-19 Public Health & Safety Legislative Update

Last Updated: December 03, 2020

The following legislative tracker provides an update on COVID-19 public health and safety-related bills introduced in the 116th Congress. Each of the listed bill numbers contains a hyperlink to the Congress.gov website for additional information

Bills by Issue

COVID I Public Health & Safety (110)

State	Bill Number	Last Action	Status
US	HR 14	Referred To The Subcommittee On Railroads Pipelines And Hazardous Materials 2020 11 02	In House
Title Commitment to Defeat the Virus and Keep America Healthy Act		Bill Summary: Last edited by TFG Reports at Nov 5, 2020, 3:28 PM The Commitment to Defeat the Virus and Keep America Healthy Act is a targeted COVID-19 relief bill that includes provisions under the jurisdiction of the House Committees on Energy and Commerce, Ways and Means, and Appropriations. The E&C provisions include: build on the work done by the administration to strengthen the Strategic National Stockpile to better respond to COVID-19 and future public health emergencies; ensure Americans, especially seniors, can access the care they need – whether it be mental health or telehealth services; strengthen critical domestic health care supply chains; improve public health infrastructure; address COVID-19 health disparities; and double down on our efforts to fight the opioid epidemic and substance abuse disorder crises.

Title
HERO Act

Description
Helping Emergency Responders Overcome Act or the HERO Act
This bill establishes a series of programs relating to the behavioral health of public-safety officers (e.g., law enforcement officers, firefighters, ambulance crew members, and 9-1-1 operators) and health care providers. For example, the bill establishes (1) a public-safety officer suicide-reporting system at the Centers for Disease Control and Prevention, (2) a grant program for peer-support behavioral health and wellness programs within fire departments and emergency medical services agencies, and (3) a grant program for behavioral health and wellness programs for health care providers.

Title
Medicare Advantage COVID Treatment Act

Introduction Date: 2020-04-28

Description
Medicare Advantage COVID Treatment Act This bill requires Medicare Advantage (MA) plans to cover specified treatment services relating to COVID-19 (i.e., coronavirus disease 2019) without cost-sharing during the public health emergency declared on January 31, 2020. The CMS must reimburse MA plans for cost-sharing amounts that would otherwise have been received, in accordance with a specified timeline. MA plans are also prohibited from instituting prior authorization or other utilization management requirements with respect to coverage of specified critical treatment services (e.g., ventilator services and intensive care unit services).

Title

Lower Drug Costs for Seniors During COVID-19 Act of 2020

Description

Lower Drug Costs for Seniors During COVID-19 Act of 2020 This bill requires the Centers for Medicare & Medicaid Services to establish a process for prescription drug plans under Medicare and Medicare Advantage to allow enrollees to make coinsurance payments in periodic installments, if the enrollee chooses to obtain the entire prescribed supply of a covered drug in a single fill. Current law allows an enrollee, during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019), to obtain the entire prescribed supply of a covered drug in a single fill or refill, up to a 90-day supply.

Press Release: <https://schakowsky.house.gov/media/press-releases/schakowsky-chu-introduce-bill-help-medicare-beneficiaries-afford-prescription>

Bill Summary: Last edited by TFG Reports at May 11, 2020, 3:05 PM
The Lower Drug Costs for Seniors During COVID-19 Act would allow Medicare Part D beneficiaries electing to receive 90-day prescription refills to spread their co-pays over the same 90-day period. This flexibility will be critical to help beneficiaries afford a three-month prescription and lower their out-of-pocket costs during the COVID-19 crisis, improving their lives and livelihood.

Title Introduction Date: 2020-05-01
Emergency COVID Telehealth Response Act

Description

Emergency COVID Telehealth Response Act This bill requires the Centers for Medicare & Medicaid Services (CMS) to allow, when exercising its waiver authority, the following providers to furnish telehealth services under Medicare during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019): physical therapists, physical therapist assistants, occupational therapists, occupational therapy assistants, speech-language pathologists, clinical social workers, and audiologists. (Currently, the CMS is authorized to waive requirements for Medicare telehealth services during the public health emergency, and it has done so to allow all providers that are otherwise eligible to furnish in-person services under Medicare to also furnish telehealth services.)

Title
PRICE Act

Description

Pandemic Response and Interstate Cost Equity Act or the PRICE Act This bill establishes the Federal Emergency Management Agency (FEMA) as the sole buyer, vendor, owner, and distributor of certain medical equipment obtained by the federal government in the event of a national health emergency and establishes a process for the pricing and distribution of such equipment. Specifically, in the event of such an emergency, the Department of Health and Human Services shall assess available medical equipment and FEMA shall (1) become the sole owner and distributor of medical equipment obtained by the federal government for which the prevailing market price exceeds the fair market price by more than 15%, (2) contract with all persons capable of producing such equipment to produce such equipment, and (3) establish a price for such equipment and sell or otherwise distribute the equipment to the states or to persons that request it. The bill establishes in Congress a Joint Committee on Defense Production.

Title
COVID-19 Testing, Reaching, And Contacting Everyone (TRACE) Act

Description
COVID-19 Testing, Reaching, And Contacting Everyone (TRACE) Act
This bill authorizes the Centers for Disease Control and Prevention (CDC) to award grants for testing, contact tracing, monitoring, and other activities to address COVID-19 (i.e., coronavirus disease 2019). Entities such as federally qualified health centers, nonprofit organizations, and certain hospitals and schools are eligible to receive such grants. In awarding the grants, the CDC shall prioritize applicants that (1) operate in hot spots and medically underserved communities, and (2) agree to hire individuals from the communities where grant activities occur.

Title Medicare Crisis Program Act of 2020 **Introduction Date:** 2020-05-01

Description

Medicare Crisis Program Act of 2020 This bill makes a series of changes to health insurance coverage and requirements during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019). For example, the bill makes several changes to Medicare and Medicare Advantage (MA) during the public health emergency. Among other things, the bill * allows all individuals who receive unemployment benefits, and their dependents, to enroll in Medicare if they otherwise do not have health insurance coverage; * eliminates cost-sharing for COVID-19 drugs and treatment services under Medicare and MA; * eliminates premiums under Medicare and caps overall cost-sharing under Medicare and MA; and * establishes a national clearinghouse for the purchase and distribution of COVID-19 personal protective equipment for Medicare providers. The bill also alters requirements under Medicaid and the Children's Health Insurance Program (CHIP) and for private health insurers during the emergency. Among other things, the bill * requires coverage of COVID-19 vaccines and treatment services under Medicaid and CHIP without cost-sharing; * increases the Medicaid Federal Medical Assistance Percentage (FMAP) that is otherwise applicable during the public health emergency, including for states experiencing economic downturns (i.e., high unemployment); * requires private health insurers to cover COVID-19 treatment services without cost-sharing; and * requires federal payment to health care providers for the cost of COVID-19 treatment services that are provided to uninsured individuals, based on Medicare payment rates.

Title

Quality Care for Nursing Home Residents and Workers During COVID-19 Act of 2020

Introduction Date: 2020-05-05

Description

Quality Care for Nursing Home Residents and Workers During COVID-19 Act of 2020 This bill modifies several requirements for Medicare skilled nursing facilities (SNFs) and Medicaid nursing facilities (NFs) during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019). Specifically, SNFs and NFs must comply with specified quality of care, worker safety, and transparency requirements, subject to civil penalties. Requirements include (1) testing residents and employees for COVID-19 weekly or before shifts, respectively, and reporting any lack of available testing kits on a daily basis; (2) providing at least two weeks of paid sick leave to each employee; and (3) reporting the number of COVID-19 cases and deaths, including demographic information, on a daily basis. The Centers for Medicare & Medicaid Services must also distribute funds to allow states to establish strike teams that may be deployed to SNFs and NFs within 72 hours of three or more COVID-19 diagnoses to help separate those who have been exposed, supervise testing, and ensure enforcement of whistleblower protections, among other needs. Teams must include members of the National Guard, public health officials, medical experts, and representatives of residents and workers.

Title

Coronavirus Frontline Workers Fair Pay Act

Description

Coronavirus Frontline Workers Fair Pay Act This bill provides hazard pay, in addition to regular pay, to specified health care and essential workers during calendar year 2020. Health care workers, which include physicians and support staff, among others, are eligible for a maximum of \$35,000 in aggregate hazard pay. Essential workers, as determined by the Cybersecurity and Infrastructure Security Agency, are eligible for a maximum of \$25,000 in aggregate hazard pay. The Department of the Treasury must make payments to employers based on an employer's quarterly projections of the number of hours worked by eligible employees, including specified hours worked prior to the enactment of this bill. Employers must issue hazard payments to eligible employees not later than 14 days after receiving such payment from Treasury. The bill establishes and provides funding for the Coronavirus Essential and High-Risk Health Care Workers Hazard Payment Fund to implement this program.

Bill Summary: Last edited by TFG Reports at May 11, 2020, 2:46 PM

The Coronavirus Frontline Workers Fair Pay Act would provide hazard pay to health care professionals and other essential workers. The bill would establish a dedicated fund within the U.S. Treasury Department to provide the hazard pay money to employers. High-risk health care workers would receive a hazard pay increase of \$18.50 per hour, and other essential workers would receive an increase of \$13 per hour. Pay would be capped at \$35,000 and \$25,000, respectively. It would be retroactive to January 27, 2020 and would be available through the end of this year.

Title Medical Supply Transparency and Delivery Act **Introduction Date:** 2020-05-05

Description

Medical Supply Transparency and Delivery Act This bill provides for the procurement and distribution of equipment and supplies needed to combat COVID-19 (i.e., coronavirus disease 2019). The bill sets forth responsibilities for the National Response Coordination Center (NRCC) of the Federal Emergency Management Agency, including that the NRCC must (1) direct the national production and distribution of critical medical equipment and supplies; (2) communicate with states, local governments, and Native American tribes regarding the availability and delivery schedule of equipment and supplies; and (3) make specified information publicly available. The Department of Defense may detail members of the Armed Forces on active duty or civilian employees to support the NRCC. The President, using authorities provided under the Defense Production Act of 1950, must establish a fair and reasonable price for and procure needed equipment and supplies. The Government Accountability Office must annually submit a report to Congress assessing the Strategic National Stockpile. The Council of the Inspectors General on Integrity and Efficiency shall designate an inspector general to oversee this bill's implementation.

Title

Medicare Accelerated and Advance Payments Improvement Act of 2020

Description

Medicare Accelerated and Advance Payments Improvement Act of 2020 This bill establishes and otherwise modifies requirements for the Medicare Accelerated and Advance Payment Program during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019). The program provides Medicare payments in advance to eligible providers experiencing claims or cash flow disruptions, such as during national emergencies; the program was specifically expanded in response to COVID-19 to encompass more types of providers, subject to certain recoupment and repayment provisions. Under the current program, recoupment of advance payments (through claims offsets) begins up to four months after the payment is made. Additionally, certain hospitals have one year to repay the full amount; other types of providers have seven months. Repayments made after this period are subject to the prevailing interest rate set by the Department of the Treasury (generally around 10% in FY2020). The bill delays recoupment for one year and caps the recoupment at 25% of a claim. The bill also gives all providers up to two years for full repayment and caps the interest rate at 1%. Additionally, the Centers for Medicare & Medicaid Services (CMS) may waive repayment entirely upon a demonstration of extreme hardship, among other factors. The bill also requires the CMS to continue to make the program available to providers of Medicare medical services for the duration of the public health emergency. (The CMS suspended the program for such providers on April 26, 2020.)

Press Release: <https://schneider.house.gov/media/press-releases/schneider-kind-shaheen-bennet-introduce-legislation-fix-health-care-provider>

Bill Summary: Last edited by TFG Reports at May 14, 2020, 4:04 PM
The Medicare Accelerated and Advance Payments Improvement Act would fix a flawed Centers for Medicare and Medicaid Services (CMS) loan program to help health care providers respond to the financial pressures caused by COVID-19 pandemic. Specifically, the bill would lower participants' interest rate from 10.25% to 1% and extend the period of time providers have to repay the loans. It would also provide loan forgiveness in cases of extreme hardship, as well as restart this critical lifeline for Medicare Part B providers.

Title
Pandemic Heroes Compensation Act of 2020

Description
Pandemic Heroes Compensation Act of 2020 This bill allows essential workers and their family members to file claims and receive compensation for harm or death suffered as a result of COVID-19 (i.e., coronavirus disease 2019). A Special Master appointed by the Department of Justice must review claims submitted and determine if a claimant is eligible for compensation, the extent of the harm to the claimant, and the amount of compensation to be awarded.

Bill Summary: Last edited by TFG Reports at May 21, 2020, 1:51 PM
The Pandemic Heroes Compensation Act would provide compensation for injuries to any individual, or their families, who are deemed an essential worker and required to leave their home to perform services and who have become ill or died as a result of COVID-19. The fund is modeled after the September 11th Victim Compensation Fund (VCF).

Title

Rural Hospital Sustainability Act

Description

Rural Hospital Sustainability Act This bill specifically allows the Center for Medicare and Medicaid Innovation to test a model for global payments to hospitals in rural areas. Under the model, rural hospitals receive fixed, monthly payments from all participating payers (e.g., Medicare, Medicaid, and private payers) for inpatient and outpatient services (rather than on a fee-for-service basis). In order to participate, hospitals must conduct a community health needs assessment survey and submit a transformation plan that incorporates the survey results and includes other specified information relating to the global payment model, including targeted populations, types of services, and anticipated Medicare savings.

Bill Summary: Last edited by TFG Reports at May 26, 2020, 3:38 PM
The Rural Hospital Sustainability Act to provide financial stability to struggling rural hospitals, and maintain access to quality health care for rural Americans throughout the COVID-19 pandemic. It would expand upon an existing pilot program to allow states to voluntarily implement a global budget for rural hospitals in lieu of the existing fee-for-service model. Under this program, private and public insurers pay rural hospitals a fixed amount of revenue — a global budget — to cover all inpatient and hospital-based outpatient services.

Title

Nursing Home COVID-19 Protection and Prevention Act of 2020

Description

Nursing Home COVID-19 Protection and Prevention Act of 2020
This bill establishes several programs and requirements to address the outbreak of COVID-19 (i.e., coronavirus disease 2019) in skilled nursing facilities, nursing facilities, intermediate care facilities, and psychiatric hospitals. Specifically, the bill provides specified funds for states to support cohorting (i.e., separating and grouping) individuals in such facilities based on COVID-19 status. States may use funds for specified items and activities, including testing kits, staffing, and facility development. The Centers for Medicare & Medicaid Services (CMS) must issue related guidance that includes, among other things, which facilities are permitted to cohort individuals and strategies for effective implementation; such guidance must account for certain factors, including a facility's compliance with Medicare and Medicaid requirements regarding infection control and emergency preparedness. The CMS must also provide monthly congressional briefings on the outbreak in these facilities and related agency actions.

Title
Rapid Testing for Communities Act of 2020

Description
Rapid Testing for Communities Act of 2020 This bill establishes a grant program for hospitals, primary care facilities, and other health care providers to purchase equipment and related materials to increase access to same-day diagnostic testing in point-of-care settings. In awarding these grants, the Centers for Disease Control and Prevention must prioritize recipients that provide services to medically underserved populations in rural areas.

Primary Sponsors
Diana DeGette

Bill Summary: Last edited by TFG Reports at May 28, 2020, 3:51 PM
The Rapid Testing for Communities Act would help expand diagnostic testing to areas of the country, particularly rural and underserved areas, that lack quick access to a public health laboratory to process test results. Specifically, it would direct the Centers for Disease Control and Prevention to award grants to hospitals, physicians and other eligible health care providers to help perform coronavirus diagnostic testing outside of a laboratory setting.

Title Introduction Date: 2020-05-27
To provide for quality assurance of COVID-19 reimbursements and reporting.

Description
This bill (1) establishes documentation requirements for testing, treatment, and reporting related to COVID-19 (i.e., coronavirus disease 2019); and (2) makes it unlawful to knowingly report a false diagnosis of COVID-19. To receive a federal reimbursement for the cost of a COVID-19 diagnostic test or treatment, the request for reimbursement must document that the administered COVID-19 test has been approved, cleared, or authorized by the Food and Drug Administration. Further, the Centers for Disease Control and Prevention must exclude from its official COVID-19 case and death counts any person who tested positive and requested federal reimbursement without the required documentation. Additionally, any person who knowingly reports a false diagnosis of COVID-19 is subject to criminal fines and imprisonment for not more than 10 years.

Title
Secure Data and Privacy for Contact Tracing Act of 2020

Description
Secure Data and Privacy for Contact Tracing Act of 2020 This bill requires the Centers for Disease Control and Prevention to award grants to public health agencies in states, tribes, and territories to incorporate digital contact tracing technology in COVID-19 (i.e., coronavirus disease 2019) contact tracing programs. This technology must meet requirements with respect to contact tracing functions, data security and privacy, and voluntary use. Grantees that develop or procure technology that does not meet these requirements lose eligibility for this funding and future funding for COVID-19 contact tracing technology. Furthermore, as a condition of receiving funding, grantees must (1) undertake an independent security assessment, and (2) develop a plan that delineates how the technology augments existing COVID-19 contact tracing and response efforts and addresses interoperability and protections to limit access to the data. In addition, the bill expressly applies federal privacy standards for the use and disclosure of personal health information by health care providers, health plans, health clearinghouses, and their business associates to contact tracing technology and its use. Current law provides an exception to these standards for personal health information used by, or disclosed to, a public health authority that is legally authorized to collect the information. The bill also prohibits the use of data derived from the contact tracing technology in legal proceedings or for immigration enforcement. The Government Accountability Office must evaluate this program within 90 days.

Title
To make a supplemental appropriation for the COVID-19 Telehealth Program of the Federal Communications Commission for the fiscal year ending September 30, 2020.

Description
This bill provides FY2020 supplemental appropriations to the Federal Communications Commission (FCC) for the COVID-19 Telehealth Program. Under the program, the FCC provides funding for health care providers to purchase telecommunications services, information services, and devices necessary to provide critical connected care services during the COVID-19 (i.e., coronavirus disease 2019) pandemic. The bill designates the funding as emergency spending, which is exempt from discretionary spending limits.

Title
Equal Opportunity First Amendment Act

Description
Equal Opportunity First Amendment Act This bill requires states and local governments to enforce orders limiting public gatherings under emergency declarations equally. Specifically, the bill (1) prohibits states and units of local government that issue orders that limit gatherings to a certain number of people pursuant to a national emergency or similar state emergency declaration from discriminating in the enforcement of such order, in the case of persons who are exercising a right protected under the First Amendment; and (2) authorizes a private right of action in U.S. district court by a person who is harmed by a violation of this provision.

Primary Sponsors
Kevin Hern

Bill Summary: Last edited by TFG Reports at Aug 20, 2020, 2:39 PM
The Equal Opportunity First Amendment Act would address disparity between decisions made to ban certain First Amendment-protected activities under State of Emergency but not others. During the COVID-19 pandemic, protesters across the country have been allowed to exercise their First Amendment right to assemble and protest, but most churches have been restricted from assembly and services. Certain local and state governments have enforced disproportionate strict social distancing guidelines to different cases in violation of individuals' First Amendment rights.

Title
MOTION Act

Description
Mobile Options for Testing In Our Neighborhoods Act or the MOTION Act This bill requires the Department of Health and Human Services (HHS) to award grants within 120 days to, among others, specified health facilities, governmental health departments, and nonprofits for establishing or maintaining mobile testing programs for COVID-19 (i.e., coronavirus disease 2019) and the virus that causes it. In awarding these grants, HHS must take into account certain state-based plans for COVID-19 testing and give priority to applicants that serve communities with limited access to transportation, medically underserved populations, and areas with shortages of health professionals.

Primary Sponsors
Debbie Mucarsel-Powell

Bill Summary: Last edited by TFG Reports at Aug 20, 2020, 2:39 PM
The Mobile Options for Testing In Our Neighborhoods (MOTION) Act would authorize \$400 million to bring coronavirus testing to communities that are medically underserved. The MOTION Act prioritizes communities that remain inaccessible to traditional testing locations, such as those in rural areas and communities which may face transportation barriers. This legislation would provide the Centers for Disease Control and Prevention (CDC) with essential funding to partner with local organizations, including community health centers, to provide the resources needed to conduct mobile testing.

Title
Improving COVID-19 Data Transparency Act

Introduction Date: 2020-08-21

Description

Improving COVID-19 Data Transparency Act This bill requires the Centers for Disease Control and Prevention (CDC) and the Department of Health and Human Services (HHS) to take certain actions with respect to reporting and modeling COVID-19 (i.e., coronavirus disease 2019) data. It also requires health information technology, as a condition of certification by HHS, to automatically generate and transmit reports of possible reportable conditions from electronic health records to public health agencies. The CDC must standardize the reporting of COVID-19 data by governmental health departments, including information related to contact tracing and surveillance, hospital admissions and outcomes, outbreaks, and community compliance with preventive measures. The CDC must also post and periodically update this information on its website. In addition, the CDC must provide sufficient information about federal COVID-19 models to allow them to be reproduced, and HHS must enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to study issues related to COVID-19 modeling, including the data sources used in the models. The CDC must also deliver a weekly televised presentation that is open to the media on its Morbidity and Mortality Weekly Report, a publication that reports surveillance statistics and other public health information and recommendations.

Title
HSAT Act

Description

Health Smart Air Travel Act or the HSAT Act This bill directs the Department of Transportation (DOT) to establish a pilot program to improve the application of public health risk mitigation measures related to the public health risks presented by COVID-19 (i.e. coronavirus disease 2019) in airports and on passenger aircraft. DOT may provide grants under the program to states, commercial airlines, airports, public health institutions, and other entities to carry out development, testing, or evaluation of such public health risk mitigation measures. DOT, the Department of Homeland Security (DHS), and the Department of Health and Human Services (HHS) must each designate federal facilities for receiving, processing, and analyzing data collected and experience gained by recipients of grants under the program. DOT, DHS, and HHS must use the data collected and experience gained to (1) jointly identify technical, regulatory, or policy challenges to the integration of public health risk mitigation measures related to the public health risks created by COVID-19 in airports and on passenger aircraft; and (2) inform ongoing initiatives by the Federal Aviation Administration, the Transportation Security Administration, and the Centers for Disease Control and Prevention to develop operational standards and procedures to mitigate such public health risks.

Medical Supply Transparency and Delivery Act

Description

Medical Supply Transparency and Delivery Act This bill provides for the procurement and distribution of equipment and supplies needed to combat COVID-19 (i.e., coronavirus disease 2019). The bill sets forth responsibilities for the National Response Coordination Center (NRCC) of the Federal Emergency Management Agency, including that the NRCC must (1) direct the national production and distribution of critical medical equipment and supplies; (2) communicate with states, local governments, and Native American tribes regarding the availability and delivery schedule of equipment and supplies; and (3) make specified information publicly available. The Department of Defense may detail members of the armed forces on active duty or civilian employees to support the NRCC. The President, using authorities provided under the Defense Production Act of 1950, must establish a fair and reasonable price for and procure needed equipment and supplies. The Government Accountability Office must annually submit a report to Congress assessing the Strategic National Stockpile. The Council of the Inspectors General on Integrity and Efficiency shall designate an inspector general to oversee this bill's implementation.

Title Introduction Date: 2020-05-06
Facilitating Innovation to Fight Coronavirus Act

Description

Facilitating Innovation to Fight Coronavirus Act This bill provides immunity from civil liability to health care providers for certain actions taken during the COVID-19 (i.e., coronavirus disease 2019) public health emergency and lengthens the terms of certain medical patents related to the treatment of COVID-19. Specifically, when testing for or treating COVID-19 during the public health emergency, a health care provider may not be held liable in any federal, state, or local civil proceeding for (1) using or modifying a medical device for an unapproved use or indication; (2) practicing without a license or outside of an area of specialty, if instructed to do so by an individual with such a license or within such an area of speciality; or (3) conducting the testing of, or providing treatment to, a patient outside of the premises of standard health care facilities. Additionally, certain medical patents that are issued with respect to the treatment of COVID-19 are deemed not to begin until the termination of the presidential emergency declaration relating to COVID-19 and are extended for an additional 10 years.

Suspend School Meal Debt Act of 2020

Description

Suspend School Meal Debt Act of 2020 This bill prohibits each school food authority and local educational agency participating in the National School Lunch Program or the School Breakfast Program from collecting unpaid school meal fees (including late fees associated with unpaid meals) or using a debt collector to collect such fees during the COVID-19 (i.e., coronavirus disease 2019) public health emergency. The prohibition ends 30 days after the date on which the public health emergency is terminated. Additionally, the Department of Agriculture must reimburse each school food authority and local educational agency participating in either program for unpaid meal fees (including late fees associated with unpaid meals) owed to the authority or agency as of the date of the enactment of this bill.

Medicare Accelerated and Advance Payments Improvement Act

Description

Medicare Accelerated and Advance Payments Improvement Act This bill establishes and otherwise modifies requirements for the Medicare Accelerated and Advance Payment Program during the public health emergency relating to COVID-19 (i.e., coronavirus disease 2019). The program provides Medicare payments in advance to eligible providers experiencing claims or cash flow disruptions, such as during national emergencies; the program was specifically expanded in response to COVID-19 to encompass more types of providers, subject to certain recoupment and repayment provisions. Under the current program, recoupment of advance payments (through claims offsets) begins up to four months after the payment is made. Additionally, certain hospitals have one year to repay the full amount; other types of providers have seven months. Repayments made after this period are subject to the prevailing interest rate set by the Department of the Treasury (generally around 10% in FY2020). The bill delays recoupment for one year and caps the recoupment at 25% of a claim. The bill also gives all providers up to two years for full repayment and caps the interest rate at 1%. Additionally, the Centers for Medicare & Medicaid Services (CMS) may waive repayment entirely upon a demonstration of extreme hardship, among other factors. The bill also requires the CMS to continue to make the program available to providers of Medicare medical services for the duration of the public health emergency. (The CMS suspended the program for such providers on April 26, 2020.)

Nursing Home COVID-19 Protection and Prevention Act of 2020

Description

Nursing Home COVID-19 Protection and Prevention Act of 2020 This bill establishes several programs and requirements to address the outbreak of COVID-19 (i.e., coronavirus disease 2019) in skilled nursing facilities, nursing facilities, intermediate care facilities, and psychiatric hospitals. Specifically, the bill provides specified funds for states to support cohorting (i.e., separating and grouping) individuals in such facilities based on COVID-19 status. States may use funds for specified items and activities, including testing kits, staffing, and facility development. The Centers for Medicare & Medicaid Services (CMS) must issue related guidance that includes, among other things, which facilities are permitted to cohort individuals and strategies for effective implementation; such guidance must account for certain factors, including a facility's compliance with Medicare and Medicaid requirements regarding infection control and emergency preparedness. The CMS must also (1) publish and update daily, on its website and on the Nursing Home Compare website, specified information relating to COVID-19 cases and deaths in these facilities; (2) ensure these facilities provide timely notice of new cases or symptoms to residents, families, and specified government agencies; and (3) provide monthly congressional briefings on the outbreak in these facilities and related agency actions.

Health Care Emergency Guarantee Act

Introduction Date: 2020-05-20

Description

Health Care Emergency Guarantee Act This bill requires the Department of Health and Human Services (HHS) to pay the out-of-pocket expenses of individuals receiving medically-necessary care or services during the COVID-19 (i.e., coronavirus disease 2019) pandemic. Specifically, the bill covers the costs for services provided through public or private health insurance and to uninsured individuals, including prescription drugs and care related to COVID-19, beginning on the date of enactment of this bill until a COVID-19 vaccine is widely available to the public. Health insurance plans are prohibited from increasing the cost-sharing requirements of plans while this program is in effect and HHS must report to Congress on the program on a weekly basis.

Description

Essential Transportation Employee Safety Act of 2020 This bill requires the Department of Transportation (DOT) to support the efforts of state and local governments to provide for priority COVID-19 (i.e., coronavirus disease 2019) testing of transportation workers who are categorized as essential critical infrastructure workers. (Essential critical infrastructure employees include, but are not limited to, medical and health care, telecommunications, information technology systems, defense, food and agriculture, transportation and logistics, energy, water and wastewater, law enforcement, and public works.) Additionally, during the COVID-19 pandemic, DOT must require (1) the owners and operators of equipment or facilities used by passenger or freight transportation employers implement personal protective equipment and disinfection and sanitization procedures; and (2) an air carrier to submit to the Federal Aviation Administration (FAA) a proposal to permit pilots to wear masks or protective face coverings in the flight deck, including a safety risk assessment with respect to such proposal. The bill sets forth requirements for owners or operators who cannot acquire necessary personal protective equipment due to market unavailability. For the duration of the COVID-19 national emergency, the FAA must (1) provide certain employees, including any air traffic controller and airway transportation systems specialist, with personal protective and sanitizing equipment; (2) ensure that each air traffic control facility is cleaned, disinfected, and sanitized frequently; and (3) ensure its contractors provide their employees with personal protective equipment.

Emergency Family Stabilization Act

Description
Emergency Family Stabilization Act This bill establishes a competitive grant program within the Administration for Children and Families (ACF) for family stabilization agencies to provide emergency relief to children, youth, and families experiencing homelessness. These agencies include current ACF grantees or subgrantees, tribes and tribal organizations, and other organizations with expertise providing direct services to those experiencing homelessness. Recipients may use grant funds for, among other purposes, personnel costs, personal protective equipment, and other supplies to mitigate the spread of COVID-19 (i.e., coronavirus disease 2019), as well as payments for security deposits and other housing-related needs. Additionally, the ACF must award the grants based on factors including the need for the services in the area served by the agency and specified allocation and prioritization requirements.

Title
SCHOOL Act

Description

Safely Creating Healthy Opening Options Locally Act or the SCHOOL Act This bill establishes a grant program and other resources to assist local educational agencies (LEAs) with reopening schools after closures related to COVID-19 (i.e., coronavirus disease 2019). Specifically, the Department of Education (ED) must partner with the Department of Health and Human Services (HHS) to award grants to LEAs for certain activities to reopen schools. These activities include (1) purchasing personal protective equipment; (2) cleaning and disinfecting schools; (3) purchasing the supplies necessary to carry out their reopening plans; and (4) complying with the guidelines, recommendations, and other public health communications issued by the Centers for Disease Control and Prevention and other entities to mitigate the hazards of COVID-19. Additionally, ED and HHS must (1) develop a process to connect health care professionals with schools to assist them with symptom checks and additional supports, and (2) develop recommendations to expand telehealth services to students and teachers in areas with a shortage of health care professionals. Further, HHS must issue guidance to clarify that private health insurance must cover COVID-19 testing, without imposing cost-sharing, through telehealth services in school-based settings. The Centers for Medicare & Medicaid Services must issue a letter to advise states on providing coverage for telehealth services in school-based settings under Medicaid and the Children's Health Insurance Program. Finally, ED must develop an online clearinghouse to collect and maintain evidence-based information, including best practices, related to reopening schools after closures due to COVID-19.

Coronavirus Language Access Act

Description

Coronavirus Language Access Act This bill requires the Centers for Disease Control and Prevention (CDC) and other federal agencies to take actions to expand access to information about COVID-19 (i.e., coronavirus disease 2019) for those with limited English proficiency. It also provides emergency funding to the Administration on Community Living for FY2020 to increase access to such information for those who have limited English proficiency and are older individuals, individuals with disabilities, or individuals who are deaf or hard of hearing. Among other requirements, the CDC must award grants to, or enter cooperative agreements with, community-based organizations or governmental health departments to offer interpretive services for individuals receiving COVID-19 tests and otherwise provide information about COVID-19 and other public health activities in certain languages other than English. The CDC must also translate, within seven days, certain COVID-19 materials into specified languages other than English and must operate a hotline staffed by trained interpreters to provide information about COVID-19 to the public. In addition, any federal agency that receives funding pursuant to a COVID-19 response law must translate, within seven days, materials that describe programs and opportunities related to COVID-19 into specified languages other than English and must provide oral language assistance services to those with limited English proficiency.

Bill Summary: Last edited by David Hoover at Sep 28, 2020, 2:45 PM
The COVID-19 Disinformation Research and Reporting Act would examine the role of disinformation and misinformation on the public response to COVID-19 and the role that social media has in promoting the spread of false information. The bill authorizes \$1 million to the National Science Foundation (NSF) to partner with the National Academies of Science, Engineering, and Medicine (National Academies) to conduct a study.

Title

Keeping Schools Safe Act

Description

Keeping Schools Safe Act This bill directs the Department of Education (ED) to award competitive grants to eligible entities (i.e., local educational agencies, educational service agencies, and the Bureau of Indian Education) to improve the indoor air quality in elementary and secondary schools in response to the COVID-19 (i.e., coronavirus disease 2019) public health emergency. In addition, ED must consult with the Centers for Disease Control and Prevention and other relevant agencies and national organizations to develop technical guidance for eligible entities to address the safety and health of students and staff. ED must, within 21 days, provide eligible entities with this technical guidance. A grant recipient must use funds to improve or monitor the indoor air quality, ventilation, or circulation in schools using the technical guidance provided by ED.

Title

Nursing Home Pandemic Protection Act

Description

Nursing Home Pandemic Protection Act This bill establishes several requirements for skilled nursing facilities, nursing facilities, and assisted living facilities to address the outbreak of COVID-19 (i.e., coronavirus disease 2019). Specifically, the bill requires these facilities to establish crisis plans and to maintain at least a 30-day supply of personal protective equipment to respond to the outbreak. The bill also incorporates a memorandum from the Centers for Medicare & Medicaid Services about new regulations that require skilled nursing facilities and nursing facilities to report COVID-19 cases to residents, families, and the Centers for Disease Control and Prevention (the requirements took effect May 8, 2020).

Bill Summary: Last edited by TFG Reports at Dec 3, 2020, 4:16 PM
The Encouraging Masks for All Act would encourage states to require the use of face masks in all public spaces and outside when one cannot maintain social distance. The legislation provides an additional \$5 billion to the Public Health and Social Services Emergency Fund available to states who implement masking requirements. States can use this additional funding for efforts to prevent the transmission of the coronavirus. Additionally, the legislation authorizes \$75 million for grants to states for promotion of universal mask wearing.
